

FAMILY DAY

FAMILY DAY is a national movement to celebrate parental engagement as an effective tool to help keep America's kids substance free.

Families who frequently eat meals together have children who are:

- 60% more likely to engage well at school
- 52% more likely to say no to drugs, alcohol and tobacco
- 27% more likely to report a good relationship with parents
- Overall less likely to experience behavioral issues, depression and other mental health concerns
